

A new dimension of freedom

Agapi 950 is a high performance, lightweight and fuel efficient family boat that fits a modern boating life. Agapi combines the Rigid Inflatable Boat (RIB) concept with an innovative and intelligent Swedish design. This has resulted in a boat that opens up a new dimension of freedom. A well thought through design, production and logistics, coupled with high fuel efficiency means a significantly lower cost of ownership compared to the closest competitors.

Agapi 950 is built with lightweight materials and carbon fiber which results in a very light boat and with lower fuel consumption. The 950 is available with single and double outboard engines or with an inboard engine.

RIB technology makes the 950 safe, fun to drive and easy to

handle regardless of the weather and speed. With its 32 feet the boat is perfect for the open sea and its unique sea performance remains untouch even fully loaded, which means up to 12 people.

Agapi 950 can be towed by a SUV, such as the BMW X5 or Audi Q7. Boat and trailer have been developed to fit each other so putting the 950 in and out of the water is surprisingly simple which opens up great opportunities to discover new waters and further lower costs of maintenance and storage.

An intelligent and modern Swedish design has created a unique boat with an extraordinary seaworthiness, low fuel consumption, large social areas, six beds, toilet, kitchenet, sunbeds offering the comfort needed for your boating vacation.

Technical data

Length with inflated tubes: **10 m**
Width with inflated tubes: **3,06 m**
Draft with titled engine: **0,45 m**
Tube diameter front: **300 mm**
Tube diameter aft: **550 mm**
Water tank: **90 liters**
Weight excl engine from: **2200 kg**
Top speed: **54 knots**

Outboard single engine
Recommended max hp: **350 hp**
Fuel tank liters: **300-480**
Weight incl engine & trailer from: **3200 kg**

Outboard twin engine
Recommended max hp: **2 x 300 hp**
Fuel tank liters: **2 x 240**
Weight incl engine & trailer from: **3400 kg**

Inboard
Recommended max hp: **370 hp**
Fuel tank liters: **300-480**
Weight incl engine & trailer from: **3500 kg**
